

# E-Shape Your Career

Getting to know the professional world, you might feel in the need to have a clear idea of main behaviors, tools and operations' functioning of companies' recruiting policies.

Where can you find information on the best internships?

How can you get the email address of the manager you are so interested in contacting?

Is it possible to learn in advance what questions they will ask you during a job interview?

To find the answers, the Scuola Superiore Sant'Anna offers you the opportunity to work with an experienced career consultant to learn what information you need and where to find it to act effectively and be prepared for job interviews.

An online individual tutoring session will be also available for you for a one to one discussion of your career plan with the career consultant
