Seasonal Schools

The **Seasonal Schools** are training opportunities which are strongly interdisciplinary, and focused on the School's frontier research topics. They are open to University students enrolled in Bachelor Degree, Masters' Degree and PhD courses, and who have the same advancement characteristics as the School's students. The Seasonal Schools are also opportunities for meetings and exchanges with other high-performing students from all over Italy as well as from abroad, to be experienced "inside" our facilities and laboratories.
